### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Melick on 9/22/2010.

The application has been amended as follows:

In claim 4, line 3, please insert ", including at least ceria" after "samarium".

In claim 5, line 2, please insert ", including at least ceria" after "cerium".

In claim 12, line 3, please insert ", including at least rhodium" after "iridium".

In claim 16, line 4 please delete "characterized in that" and replace with "as recited in claim 1"; and in claim 16, please delete lines 5-16.

2. The following is an examiner's statement of reasons for allowance: As discussed in attorney remarks filed on 9/2/10, the prior art does not teach or suggest the claimed catalyst. The closest prior art, Wu (US 5,898,014) does not teach an aluminum free carrier and also does not teach the specific ranges of the claimed catalyst. The declaration filed on 6/22/09 generally show that the claimed ranges are critical to the high selectivity of the catalyst for CO and H<sub>2</sub> in the partial oxidation of methane. There

is no teaching in the prior art to suggest optimization to achieve these ranges since the catalyst of Wu '014 is not disclosed for partial oxidation processes.

3. Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 16, 18 and 19, directed to the process of making or using an allowable product by this present amendment, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 1/2/2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DIANA J. LIAO whose telephone number is (571)270-3592. The examiner can normally be reached on Monday - Friday 9:30am to 6:00pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman can be reached on 571-272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
